Founded in 1976

Art Materials Service, Inc. © 2009

Volume #30

THANK YOU FOR YOUR INTEREST IN AMS PRODUCTS!

Art Materials Service, Inc. (AMS) was founded in 1976 to provide reliable generic hardware to the aluminum picture framing industry. By 1985, AMS became the world's largest manufacturer of metal hardware to this industry with a reputation for high quality and fair prices. Our continually expanding primary product line consists of metal hardware to assemble, hang, and secure aluminum, wood and plastic picture frames. Other items in our line include self-locking protective corrugated corners, mounting materials, laminating films, wire, easel backs, and a growing selection of hand- and air-operated machines used for the installation of AMS parts.

Most prices are quoted as "**cost per thousand**" (or "**M**") parts.

In order to avoid problems with the decimal, remember that \$10.00/M parts = \$0.01/each part.

PLEASE NOTE: Minimum invoice value for domestic orders has been decreased to \$150.00. Orders under \$150.00 will incur a \$35.00 handling fee.

\$300.00 minimum order for exports.

If you require technical assistance, need an AMS distributor referral, or would like samples of AMS products, contact us:

- By Phone, Toll Free National: **888-522-5526** or Local: **732-545-8888**
- By Fax: **732-545-9166**
- Visit Our Website: **www.ArtMaterialsService.com**

Art Materials Service also has a **EUROPEAN DISTRIBUTION** center in Emmerich, Germany:

AMS Trading GmbH, Max-Planck-Str. 17, 46446 Emmerich, Germany

Phone: 49-(0)2822-91302-0 Fax: 49-(0)2822-91302-25 Web: www.AMS-Trading.de

TERMS AND CONDITIONS OF SALE

From day of shipment – Net 30 days – Upon approval by the AMS Credit Department. FOB Art Materials Service, Inc., warehouse. Not responsible for goods damaged in transit. All claims must be made within 5 days after receipt of goods. All prices are subject to change without notice. A 2% service charge per month on all balances over 30 days. Any costs sustained by Art Materials Service, Inc. in collecting delinquent accounts will become part of the total amount owed to Art Materials Service, Inc. Our liability shall be limited solely to the replacement or repair of defective material not meeting our specifications. Returns are only accepted when issued a return authorization number and packing slip.

SPECIAL PACKAGING

Most bulk items in our catalog can be bagged or boxed in a form to make their handling and usage easier for our customers. AMS can also produce custom packs of hardware. For example: 2 wire hangers, 2 screws, and a 24" coil of wire in a private labeled package. For an individual quote please contact our Customer Service Department.

**Due to ever-changing market conditions, our prices fluctuate often.
Please refer to our Web site or call to verify pricing.**

Security hardware packaged in bulk cartons

The AMS Security System affixes wood and metal frames to walls with this special set of hardware. When all hardware is engaged, frames are not easily removed from walls without the use of an AMS Secure-T Wrench.

To secure a frame, use 2 Mounting Brackets on the upper side of the frame and 1 Secure-T Screw on the lower side of the frame. For large frames, AMS recommends using 2 Secure-T Screws on the lower side of the frame. For small frames, it may be possible to simply use 2 Secure-T Screws along two sides of the frame and eliminate the Mounting Brackets.

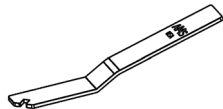

AMS Secure-T Bits can adapt screw drivers for the installation of Secure-T Screws and help complete large jobs. (See AMS Power Drill Adaptors #555-2-11 and #555-2-186.)

555-11

AMS Secure-T Screws for engagement either directly into standard #11-type (double-plate) aluminum frames or AMS #555-6 plates on wooden frames. Head size is 14mm. Use with AMS #555-3 Wall Anchors.

Code	Qty / UM	1 - 9 BG	1 - 4 M	5+ M

Z- Bars for Heavy Frames

The EZ Bar System is designed to hang art, mirrors, cabinets and other heavy objects. Two bars are needed per frame: One for the wall and one for the frame. Height dimension for all bars listed here is 1-1/16" (2.7cm).

How to Use

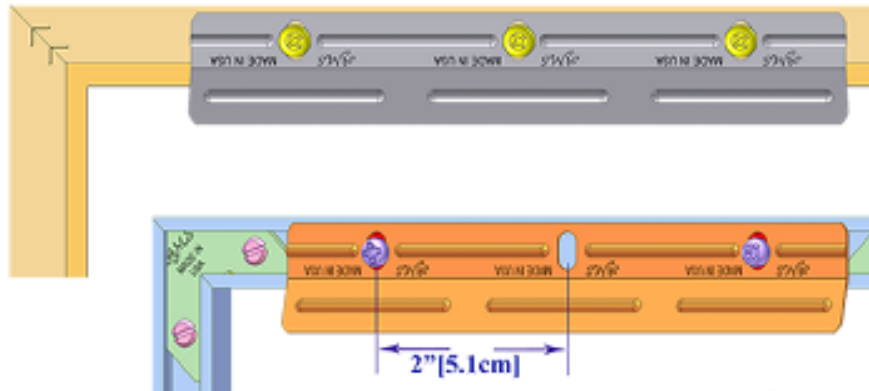

1. Attach one bar along the **TOP** of the frame. Recommended screw for attaching first bar onto frame. (AMS# F1215 size #6 x 1/2" phillips head.)
2. Determine placement on the wall using a level to ensure the frame will hang correctly. Use wall anchors to secure the second bar with screws onto the wall. (AMS# F1228 size #8 x 1" phillips head with AMS# 555-3A anchor.)

Note: For security, you can add and AMS Mounting Bracket on to the bottom center of the frame and affix it to the wall using an AMS Locking T-Screw.
